MEMORANDUM

From: Stanley A. Levine, Council Attorney

To: Members of Common Council

Re: G-85-02-19 (as amended) AN ORDINANCE requiring the
registration of firearms

Subject: Questions of illegality raised by Attys.
Ward Miller and Mark Lansky

This memorandum does not purport to be a substantive response to the arguments against gun registration advanced by both attorneys Ward Miller and Mark Lansky in their letters dated February 13, 1985. Both of these attorneys are known by me to have experience in the ownership and use of firearms and their concerns expressed against gun registration arise from that experience.

I will confine this memorandum to Mr. Lanksy's assertion that "I.C. 35-47-2-13 provides that the registration of firearms or "deeping" (sic-keeping) of any record of legal sale is unlawful, and that no such record will be maintained by a local or state official or agency" (my emphasis added) (NOTE: Mr. Lansky also states "I have not as yet, had an opportunity to read the ordinance you submitted.")

Similarly, I am responding to Mr. Miller's assertions about illegality. Mr. Miller, writing about "the proposed firearm registration ordinance "as reported in the local papers" quotes from I.C. 35-47-2-13, in part providing "no additional record of any lawful transfer of any firearm shall be made or maintained by any local or state official or agency." (my emphasis added), Mr. Miller asserts that the proposed firearm registration ordinance is illegal because "the legislature indicates it may not pass such an ordinance".

I.C. 35-47-2-13 does not provide, as Mr. Lansky states, "that the registration of firearms is unlawful", nor does that section state, as Mr. Miller argues that the City may not pass a registration ordinance.

STATE LAW ON HANDGUNS:

The above-quoted statute is a portion of a chapter of the criminal code entitled "Crimes - Regulation of weapons". Chapter 1 contains definitions and chapter 2 relates to "Handguns". The first six sections of that chapter are directed to the subject of licenses to carry handguns. Sections 7-13 cover the transfer of handguns. There is a prohibition of transfer a handgun to anyone under the age of 18, or one who the transferor has reason to believe has been convicted of a felony, is a drug abuser, alcohol abuser, or is of unsound mind. I.C. 35-47-2-7. There is a mandatory waiting period of 7 business days after application for transfer of a handgun. I.C. 35-47-2-8. The written application is executed in triplicate, with one (1) copy mailed to the Chief of Police or County Sheriff, one (1) copy to the Superintendent of the Indiana State Police and one (1) copy being kept by the transferor for six (6) yrs. I.C. 38-47-2-9. The Sheriff or Chief of Police and the Superintendent are required to search their records for "information constituting grounds for nondelivery of a handgun" and report to the transferor. I.C. 35-47-2-11.

The intent of the chapter is expressly stated in I.C. 35-47-2.11 - that all sales forms be completed by a transferee in presence of transferor, no delivery be made of a handgun until seven (7) working day waiting period and any notice from Chief of Police or Sheriff or Superintendent that the application is untrue or incomplete or transferee has a felony conviction shall be "grounds for nondelivery".

Section 13 provides that "all forms utilized in executing lawful firearm transfers with the sole exception of those remaining with transferor" (for six (6) years I.C. 35.47-2-9) shall be forwarded within six (6) months to the transferee to be retained by the transferee as proof of ownership. Since the one (1) copy sent to the Chief of Police or Sheriff and the one (1) copy sent to the Superintendent of Police are to be forwarded to the transferee, there is a prohibition quoted by both attorneys that "no additional record of any lawful transfer of an firearm shall be made or maintained by any local or state official or agency."

The above quoted statute applies "equally to an occasional sale, trade or transfer between individual persons and to retail transactions between dealers and individual persons." I.C. 35-47-2-8

State law does provide that there is supposed to be no additional record of a lawful transfer of a handgun maintained by a local official or agency, and that the 2 copies of the application for transfer referred to the local and state police departments are to be forwarded to the transferee within 6 months, with the third copy being retained by the transferor (individual or retailer) for six years. State law does not expressly say that handguns may not be registered by City government.

While there is no specific express statement in the "intent" portion of the statute that the identity of the transferee and the information in the application be protected, there may be some implication of this unstated intent from the requirement that the 2 copies of the application forwarded to local or state police be forwarded to the transferee within 6 months and that no other record of a lawful transfer be kept by any state or local official or agency.

CONCLUSION:

The proposed ordinance does not seek to make an additional record of the transfer of a handgun which is prohibited by state law. It seeks to register ownership of handguns.

Mr. Lansky stated "Home Rule", does not allow local governments in these areas to come up with a different local requirement where the state statute sets forth such an expressed provision." (my emphasis added)

By state law, entitled, "Home Rule", any doubt as to the existence of the power of a municipality as a unit of government shall be resolved in favor of its existence. I.C. 36-1-3-3. As a unit of government, a municipality may exercise any power it has to the extent that power is not expressly denied by Indiana Constitution or by statute; and it is not expressly granted to another entity I.C. 36-1-3-5. (my emphasis added)

There is no express granting of the power to register handguns to any other entity, including the State of Indiana, nor is there an express denial of that power by either the Indiana Constitution or by statute. The key word is "express". While there may be an argument made that there is an implied intent to protect the identity of the transferee of a handgun, and there is an express prohibition on keeping any other record of a transfer of a handgun other than the triplicate application for transfer discussed above, neither I.C. 35-47-2-13, nor any other statute expressly denies a municipality the power to register the ownership of handguns. In the absence of that express denial of the power to register handguns it is my opinion that the City

of Fort Wayne, as a unit of local government has that power in accordance with I.C. 36-1-3-5. If there is a doubt as the existence of that power, it is mandated that the doubt shall be resolved in favor of its existence. I.C. 36-1-3-3.

It is recognized that the proposed ordinance, already amended once, may take a different form after public hearing and/or subsequent amendments. Final opinions of legality should be reserved for the final version, which hopefully will be read before any person expresses any further opinions of legality.

Respectfully submitted,

Stanley A. Levine
